

# **CITY OF PARK HILLS INFRASTRUCTURE AND PUBLIC WORKS COMMITTEE MEETING MINUTES FROM THURSDAY, AUGUST 8, 2024**

## **1. Review and approval of minutes**

The minutes from the July Infrastructure meeting were reviewed and approved.

## **2. GPS misdirection**

The City has not aggressively attempted to contact the various GPS map providers (Google Maps, for example). Councilman Shields will share this information with Stacey Hans at KYTC.

## **3. Traffic count**

Dan VonHandorf shared the following traffic counts. All counts are over a 24-hour period and cover both lanes of traffic:

- St. Joseph Lane: 1,948
- North Arlington: 1,286
- Cleveland at Park Road: 612

The next streets to be monitored are St. James and South Arlington. The counts will be repeated once school starts to provide a snapshot of traffic when schools are both in and out of session.

## **4. North Arlington Sidewalk**

Mr. Jenkins was not able to meet with Mayor Zembrodt and Jay Bayer about this issue. He'll try to do so before the next Committee meeting.

## **5. Connectivity on Dixie at North Arlington**

This pertains to the section of Dixie Highway between North Arlington and the first business/concrete pad going north. While several approaches were discussed, a course of action was not determined. In the meantime, Mr. VonHandorf will get prices for a rock-and-pipe approach.
